Junior College (11th and 12th)	Thakur college (kandivali,Mumbai)	80%(12th)
Secondary school (6th to 10th)	U.S ostwal school (mira road,mumbai)	79%(10th)

SKILLS AND EXPERIENCES

➔ Have ½ years of experience in PYTHON and I really like and comfortable.I am even trying some new tech..

➔ I also have some experience as well as interest in JAVASCRIPT because this language can give functioning or you can say engine to the front-end and I'm in love with this language

➔ As the front-end is said then how can we forget HTML and CSS as these both languages are the basic for web development..

➔ Currently I'm working on mern stack web development for almost 2 month and learned new tech like REACT ,NODE, MONGODB..

➔ I do not have that much experience in that but I'm looking forward to making projects on mern stack...

➔ I also have some great experience in data structures and algorithms.

➔ I'm having experience in C++ also..

➔ In near future I would really like to work on data science, block chain,IOT...

➔ Aiming to become a freelancer by the end of 2021..

➔ I'm really excited and passionate for the summer training with google and to get some great experience :) ..

TECH KNOWLEDGE

- Python
- Javascript
- C++
- Html & Css
- Algorithms
- Data Structures
- React Js
- Node Js
- Mongo db
- Bootstrap
- Material UI
- Git & Github
- Vs Code
- Object oriented Programming
- APIs

PROJECTS (ALL ARE UPLOADED ON GITHUB)

- *Tic Tac Toe Game* : I love playing this game in school so thought of making it..
- *Netflix Clone* : I learned a lot in this project as it was something new for me but i had fun making this..
- *Music App* : I really wanted to make a music player because there are sites which stream music but also show ad so I don't want that
- *React Website* : My first react website I made and deployed on the internet through github as this thing gave me too much experience..
- *Amazon clone* : Made amazon clone with react js ,taken guide from youtube
- *Weather App* : Made an weather searching app with express and used weather api
- *Alarm* : Just got an idea of making an alarm from my mother as she always used to tell me to get up early in the morning for college..

I have made more than 20+ projects. I'll upload it on github..

LANGUAGES

English,Hindi,Marvadi,french(only basics but one day I'll learn it fully)

OTHER INTERESTS

- Cricket
- Chess
- Singing
- Badminton
- Swimming
